Summary

- DevOps + infrastructure automation across Windows/Linux/cloud with CI/CD and IaC.
- PowerShell + Python automation to reduce repetitive operations and firefighting.
- Strong infrastructure background: directory services, virtualization, storage, and operations.
- Documentation-first delivery: runbooks, diagrams, and maintainable handoff.

Experience (public-safe timeline)

2019 – Present | Platform automation & delivery systems (public-safe)

- CI/CD pipelines (GitHub Actions, Azure DevOps, Jenkins)
- Automation/orchestration with Ansible and configuration tooling
- Operational standardization, reliability improvements, and documentation

2016 – 2019 | Infrastructure operations + automation (public-safe)

- Windows/Linux production support and root-cause documentation
- Directory services administration and automation (inventory, reporting, hygiene)
- Virtualization and application delivery platform support (public-safe)

2010 – 2016 | Server administration & enterprise projects (public-safe)

- Large-scale migrations (domain and OS modernization) and remote site support
- Virtualization planning, implementation, troubleshooting
- PowerShell automation for directory hygiene and management tasks

2008 – 2010 | Internal tools, release readiness, and platform support (public-safe)

- Release planning, documentation, operational readiness
- Platform support with monitoring/reporting improvements
- Built SSIS/SSRS/PowerShell reporting for proactive operational visibility

2003 – 2008 | IT support, systems work, and infrastructure fundamentals (public-safe)

- Helpdesk and enterprise support including directory/messaging administration
- Database maintenance, reporting, and performance improvements
- Process documentation and operational procedures

Skills

Active Directory	PowerShell	Python
Django	REST APIs	Linux
Terraform	Ansible	CI/CD
GitHub Actions	Azure DevOps	Jenkins
SQL Server	PostgreSQL	VMware/virtualization
Monitoring & reporting		

Education & Languages

Education: B.S. in Electronics (public-safe) • 2003

Languages: Spanish (Native) • English (Fluent)

Public-safe resume: no employer/client names and no identifiable role titles. Full detail available on request.
